State Summary of Library Statistics

Each year the State Library sends annual report forms to California's academic, public, special, state agency and county law libraries. Statistical data from those reports are tabulated in this publication, with directory listings published in the companion volume, California Library Directory. Although the statistics program and these publications are promoted as widely as we can, participation for most is voluntary (public libraries are required by the Education Code to report annually to the State Librarian) and some choose not to do so. This makes the state summary less than complete. Libraries failing to return the report form two years in a row are dropped from the free publications distribution list. At present, no state agency collects data on school libraries, K-12.

For fiscal year 1982-1983 we have reports from 884 libraries. However, we estimate there are at least 1,200 libraries, exclusive of school libraries, in operation in the state.

Type of library	Total reporting	Total estimated
Academic	164	185
Public	169	169
Special	426	668
State agency	67	120
County law	58	58
Total	884	1,200

Data for public libraries are 95% complete, with all 169 libraries reporting at least partially. Among academic libraries, data for the two state systems, University of California and California State University, are also substantially complete. Community college and private academic library data are much less complete, reducing the academic library category as a whole to a level of approximately 75% completeness.

The majority of special libraries do not report annually to the State Library, though many of the largest and most cooperative do. The level of reporting in this category is about 45%, with financial data lower still as many private libraries consider that to be proprietary information.

The lowest reporting level of all, about 40%, is among state agency libraries. While many of these are small, one person operations, they are by definition supported with public funds and owe an accounting of themselves. The State Library continues to urge all state agency libraries to file the annual report, and is seeking through a variety of technical assistance and consulting activities to bring them into the wider circle of library cooperation.

The State Summary of Library Statistics table which follows should be used with the caution of its incompleteness noted above. The data are not complete, and never will be, but they are the best data we have.

Public Library Systems

California's 15 cooperative public library systems are organized under the California Library Services Act (CLSA), most as joint powers agencies. They are governed by Administrative Councils made up of the directors of the member public libraries, aided by System Advisory Boards representing the public served. Most systems employ a Coordinator/-Director and support staff. They maintain a communications system of telephone and, typically, electronic mail, direct distance dial units, or TWX. Either through system vans or by contract with member libraries, they provide regular delivery service for exchange of materials. One or more system reference centers, housed in the larger libraries, are supported for second level referral of questions individual libraries are unable to answer. Systems are supported by a combination of local membership fees and reimbursements, state CLSA program grants, and project awards of federal Library Services and Construction Act (LSCA) funds. Most systems have associated intertype library networks or affiliated academic and special library members.

Public Libraries

California's 169 public libraries are departments of local government: city, county and special district. They vary widely in size and strength, from the City of Vernon with 90 residents to Los Angeles with more than 3 million, and cover the state with a network of branch libraries, bookmobiles and other extension services. Most participate in cooperative library systems comprising all the public libraries in a county, or several adjacent counties, offering equal access and sharing of resources among all residents. Address listings may be found in the companion volume, California Library Directory.

Public libraries are grouped into six categories by size of population served:

Group 1	over 500,000 population
Group 2	100,000 to 500,000 population
Group 3	50,000 to 100,000 population
Group 4	25,000 to 50,000 population
Group 5	12,500 to 25,000 population
Group 6	under 12,500 population

For each size group there are five tables:

Table 1, Profile	Population, system, outlets, per capitas
Table 2, Income	Local, state, federal sources, total
Table 3, Expenditure	Materials, salaries, total
Table 4, Collections	Print, microform, audiovisual
Table 5, Staffing and activities	Staff, circulation, ILL, reference

Data on the following tables are taken from annual reports submitted to the California State Library. Preliminary tables were compiled from these reports and published as Public Library Statistics, Advance Edition. Additions and corrections received from libraries up to the cut off date are incorporated in the tables in California Library Statistics, which supersede those of the Advance Edition.

Population. Population served by the library jurisdiction, estimate for January 1, 1983, certified by the State Library. Figures are drawn from the Population Research Unit of the State Department of Finance and are intended to represent as accurately as possible the actual number of persons served and taxed for service, with no persons counted twice or credited to more than one library. Many county libraries are not credited with the entire county population, for their boundaries contain cities or districts independently supplying service. District libraries typically serve an unincorporated area larger than their central city. A few municipal libraries serve unincorporated county areas under contract with the county.

Building outlets. Number of fixed building outlets providing public library service. This includes a main library, branch library, and library station but not an administrative headquarters providing no public service.

Branch is an extension library open some part of each of five days a week, has at least 1,400 sq. ft. of floor space, a general book collection of at least 7,000 volumes, and is staffed with the equivalent of at least one librarian and one clerical employee during the hours open for service.

Station is a library structure smaller than a branch, providing a lower level of service.

Total service outlets. Total of fixed building outlets plus the number of stops by any mobile library (bookmobile, trailer, van, etc.) operated by the library.

Hours weekly all units. Number of hours of public service provided by all outlets, including mobile library service hours but not travel time. Fractions of hours are dropped.

Expenditure per capita. Total operating expenditure expressed as per capita. Annual report line C12, "Total Operating Expenditure", for the reporting year is added to line C18, "Estimate of services and supplies benefiting library expended by other city/county division, not charged to library budget". This sum, (formerly called "Equivalent operating expenditure"), is divided by the population served.

Circulation per capita. Total circulation of all materials is divided by the population served. Data on in-library use of materials is not gathered at this time.

Reference per capita. Total reference questions answered is divided by the population served.

Book stock turnover. A measure of the activity of the book collection. Total circulation of books, periodicals and pamphlets is divided by total volumes held. This is one of the new measures recommended by the Public Library Association for the public library planning process in Output Measures for Public Libraries, (ALA 1982).

Table 2, "Income"

Foundation program. Revenue total for the library's Foundation Program, as defined by the Public Library Finance Act (SB 358), including local appropriation, special district augmentation funds, homeowner and business inventory exemption reimbursements, contract payment from another jurisdiction for library service, federal revenue sharing funds, local fines, fees, gifts and other income.

State sources. SB 358 funds, and CLSA funds for interlibrary loan, direct loan and data base reimbursement, if dirrectly received by the library.

Federal sources. Federal allocations or grant funds other than general revenue sharing or LSCA project funds.

Transfer from reserves. Funds transferred from reserve accounts, carryover, beginning balance or similar income.

Total operating. Total income available for operating expenses (not capital outlay), the sum of local, state and federal sources and transfer from reserves or beginning balance.

Table 3, "Expenditure"

Library materials. Expenditure for all library materials: books, periodicals, microforms, audiovisual materials. Excludes supplies, binding and materials leased on contract.

Salaries. Expenditure for staff salaries and benefits of administration and library service personnel. Excludes maintenance staff paid from budget.

Operating expend. Total operating expenditure: materials, salaries, operations, contract services, transfers, payments. Excludes capital outlay and transfer to reserves.

Capital. Expenditure for capital outlay items: equipment over $200, sites, buildings, remodeling, vehicles, etc.

Reserve. Allocation to reserve accounts.

Total. Total expenditure: operating expenditure plus capital outlay and allocation to reserve.

Table 4, "Collections"

Books added. Unit count of volumes added during the fiscal year, gross number not adjusted for discards. Includes bound serials and continuations.

Volumes held. Unit count of all volumes held at end of fiscal year, June 30.

Documents. Unit count of documents (separate from books), items in pamphlet or information file. Documents included in the volume total are not counted twice.

Microforms. Unit count of microfilm reels, microfiche sheets, microcards.

Periodicals. Number of periodical titles currently received. Includes magazines, newspapers, loose leaf services. Excludes bound serials and continuations treated as books.

Maps. Unit count of maps and charts.

Films. Title count of moving pictures, all speeds and reel sizes.

Video. Title count of videorecordings, all speeds and formats.

Audio. Title count of audiorecordings, disc and tape, all speeds and formats.

Table 5, "Staffing and activities"

Staff count. Total count of persons employed full-time and part-time, paid from library budget, as of June 30, reporting year. Number cannot be a fraction.

Librarian FTE. Number of persons working as Librarian, with MLS degree or equivalent, expressed in full-time equivalent (FTE). Full-time is normally 40 hours per week, but not less than 36. Includes library director.

Support FTE. Number of persons working in support and paraprofessional positions, expressed in FTE. Includes library technical assistants, clerical and other (non-librarian) support positions. Includes student pages and all part-time help. Does not include staff provided by contract or local government.

Volunteer FTE. Number of persons volunteering work in the library, unpaid, expressed in FTE.

Circulation. Total annual out of building circulation, all materials, all units.

ILL lent. Number of items lent by reporting library on interlibrary loan to other libraries. Includes photocopies sent in lieu of ILL.

Reference. Annual total of questions answered by reporting library. Includes activities requiring use of library collections and/or training and experience of staff, but not simple directional questions. Counts negative response that is satisfactory to patron as an answered question.

State Summary of Library Statistics

Each year the State Library sends annual report forms to California's academic, public, special, state agency and county law libraries. Statistical data from those reports are tabulated in this publication, with directory listings published in the companion volume, California Library Directory. Although the statistics program and these publications are promoted as widely as we can, participation for most is voluntary (public libraries are required by the Education Code to report annually to the State Librarian) and some choose not to do so. This makes the state summary less than complete. Libraries failing to return the report form two years in a row are dropped from the free publications distribution list. At present, no state agency collects data on school libraries, K-12.

For fiscal year 1983-1984 we have reports from 971 libraries. However, we estimate there are at least 1,200 libraries, exclusive of school libraries, in operation in the state.

Type of library	Total reporting	Total estimated
Academic	178	185
Public	169	169
Special	456	668
State agency	110	120
County law	58	58
Total	971	1,200

Data for public libraries are 95% complete, with all 169 libraries reporting at least partially. Among academic libraries, data for the two state systems, University of California and California State University, are also substantially complete. Community college and private academic library data are much less complete, reducing the academic library category as a whole to a level of approximately 80% completeness. Data for special and state agency libraries is less complete, in proportion to the extent to which they report to the State Library.

The State Summary of Library Statistics table which follows should be used with the caution of its incompleteness noted above. The data are not complete, and never will be, but they are the best data we have.

Public Library Systems

California's 15 cooperative public library systems are organized under the California Library Services Act (CLSA), most as joint powers agencies. They are governed by Administrative Councils made up of the directors of the member public libraries, aided by System Advisory Boards representing the public served. Most systems employ a Coordinator/-Director and support staff. They maintain a communications system of telephone and, typically, electronic mail, direct distance dial units, or TWX. Either through system vans or by contract with member libraries, they provide regular delivery service for exchange of materials. One or more system reference centers, housed in the larger libraries, are supported for second level referral of questions individual libraries are unable to answer. Systems are supported by a combination of local membership fees and reimbursements, state CLSA program grants, and project awards of federal Library Services and Construction Act (LSCA) funds. Most systems have associated intertype library networks or affiliated academic and special library members.

Public Libraries

California's 169 public libraries are departments of local government: city, county and special district. They vary widely in size and strength, from the City of Vernon with 90 residents to Los Angeles with more than 3 million, and cover the state with a network of branch libraries, bookmobiles and other extension services. Most participate in cooperative library systems comprising all the public libraries in a county, or several adjacent counties, offering equal access and sharing of resources among all residents. Address listings may be found in the companion volume, California Library Directory.

Public libraries are grouped into six categories by size of population served:

Group 1	over 500,000 population
Group 2	100,000 to 500,000 population
Group 3	50,000 to 100,000 population
Group 4	25,000 to 50,000 population
Group 5	12,500 to 25,000 population
Group 6	under 12,500 population

For each size group there are six tables:

Table 1, Profile	Population, system, outlets, per capitas
Table 2, Income	Local revenue, state allocations
Table 3, Expenditure	Materials, salaries, total
Table 4, Staffing	Staff count, salary ranges
Table 5, Collections	Print, microform, audiovisual
Table 6, Activities	Circulation, ILL, reference

Data on the following tables are taken from annual reports submitted to the California State Library. Preliminary tables were compiled from these reports and published as Public Library Statistics, Advance Edition. Additions and corrections received from libraries up to the cut off date are incorporated in the tables in California Library Statistics, which supersede those of the Advance Edition.

Population. Population served by the library jurisdiction, estimate for January 1, 1984, certified by the State Library. Figures are drawn from the Population Research Unit of the State Department of Finance and are intended to represent as accurately as possible the actual number of persons served and taxed for service, with no persons counted twice or credited to more than one library. Many county libraries are not credited with the entire county population, for their boundaries contain cities or districts independently supplying service. District libraries typically serve an unincorporated area larger than their central city. A few municipal libraries serve unincorporated county areas under contract with the county.

Building outlets. Number of fixed building outlets providing public library service. This includes a main library, branch library, and library station but not an administrative headquarters providing no public service.

Branch is an extension library open some part of each of five days a week, has at least 1,400 sq. ft. of floor space, a general book collection of at least 7,000 volumes, and is staffed with the equivalent of at least one librarian and one clerical employee during the hours open for service.

Station is a library structure smaller than a branch, providing a lower level of service.

Total outlets. Total of fixed building outlets plus the number of stops by any mobile library (bookmobile, trailer, van, etc.) operated by the library.

Hours. Number of hours of public service provided weekly by all outlets, including mobile library service hours but not travel time. Fractions of hours are dropped.

Appropriation per capita. Local revenue appropriated by the jurisdiction expressed as per capita. This figure is derived from the Public Library Fund Annual Certification, not the Public Library Report.

Expenditure per capita. Total operating expenditure expressed as per capita. Annual report line C12, "Total Operating Expenditure", for the reporting year is added to line C18, "Estimate of services and supplies benefiting library expended by other city/county division, not charged to library budget". This sum, (formerly called "Equivalent operating expenditure"), is divided by the population served.

Circulation per capita. Total circulation of all materials is divided by the population served. Data on in-library use of materials is not gathered at this time.

Reference per capita. Total reference questions answered is divided by the population served.

Table 2, "Income"

Local revenue appropriated. Local revenue appropriated for the year by the jurisdiction, as reported on the Public Library Fund Certification. These figures are not derived from the Public Library Report.

Total operating income. Total income available for operating expenses (not capital outlay), the sum of local, state and federal sources and transfer from reserves or beginning balance.

Capital outlay. Income for capital outlay items, including sites, buildings, vehicles and equipment over $200.

Total income. Total income available for operating expenses and capital outlay.

State allocations: CLSA. State funds allocated to the jurisdiction under the California Library Services Act for transaction based reimbursements.

State allocations: PLF. State funds allocated to the jurisdiction under the Public Library Fund.

Table 3, "Expenditure"

Library materials. Expenditure for all library materials: books, periodicals, microforms, audiovisual materials. Excludes supplies, binding and materials leased on contract.

Staff salaries. Expenditure for staff salaries and benefits of administration and library service personnel. Excludes maintenance staff paid from budget.

Total operating expenditure. Materials, salaries, operations, contract services, transfers, payments. Excludes capital outlay and transfer to reserves.

Capital outlay. Expenditure for capital outlay items: equipment over $200, sites, buildings, remodeling, vehicles, etc.

Grand total expenditure. Operating expenditure plus capital outlay and allocation to reserve.

Table 4, "Staffing"

Staff count. Total count of persons employed full-time and part-time, paid from library budget, as of June 30, reporting year. Number cannot be a fraction.

Librarian FTE. Number of persons working as Librarian, with MLS degree or equivalent, expressed in full-time equivalent (FTE). Full-time is normally 40 hours per week, but not less than 36. Includes library director.

Support FTE. Number of persons working in support staff positions, ie, library technical assistant, clerk-typist, etc., expressed in full-time equivalent (FTE). Includes student pages and all part-time help. Does not include staff provided by contract or local government.

Total FTE. Total full-time equivalent of all persons paid from library budget.

Volunteer FTE. Full-time equivalent weekly of persons volunteering unpaid service in library.

Salary ranges. Monthly salary ranges, beginning step - final step, of positions surveyed, as of September 30.

Table 5, "Collections"

State Summary of Library Statistics

Each year the State Library sends annual report forms to California's academic, public, special, state agency and county law libraries. Statistical data from those reports are tabulated in this publication, with directory listings published in the companion volume, California Library Directory. Although the statistics program and these publications are promoted as widely as we can, participation for most is voluntary (public libraries are required by the Education Code to report annually to the State Librarian) and some choose not to do so. This makes the state summary less than complete. Libraries failing to return the report form two years in a row are dropped from the free publications distribution list. At present, no state agency collects data on school libraries, K-12.

For fiscal year 1984-1985 we have reports from 990 libraries. We estimate there are at least 1,200 libraries in operation in California, exclusive of school libraries, so data in these publications are about 80% complete. At present, no state agency collects data on school libraries, K-12. By type of library, the number reporting are:

169 public libraries with 2,945 public service outlets. By jurisdictions, there are 43 county, 106 city, eight combined city-county, and 12 district public libraries. By level of service, there are:

163 main libraries. Administrative headquarters are not included, and some county or district libraries have no main library.

587 branch libraries. A branch is an extension library open some part of each of five days a week, has at least 1,400 square feet of floor space, a general book collection of at least 7,000 volumes, and is staffed with the equivalent of at least one librarian and one clerical employee during hours open for service.

340 library stations. A station is a library structure smaller than a branch, providing a lower level of service.

1,855 mobile library stops. A mobile library stop is a location visited by a bookmobile or other traveling library. There are 80 mobile libraries in operation this year.

Combining main, branch and station figures, there are 1,090 fixed public library outlets.

184 academic libraries:

29 state supported academic libraries.

102 community college libraries.

53 private academic libraries.

467 special libraries:

18 popular libraries at U.S. armed forces installations.

28 legal libraries.

93 medical libraries.

10 religious libraries.

178 libraries operated by for profit organizations.

140 libraries operated by non-profit organizations.

112 state agency libraries:

39 resident libraries at state institutions and schools.

20 legal libraries.

11 medical libraries.

42 special libraries.

58 county law libraries.

Included under special libraries are 52 operated by the federal government.

Public Library Systems

California's 15 cooperative public library systems are organized under the California Library Services Act (CLSA), most as joint powers agencies. They are governed by Administrative Councils made up of the directors of the member public libraries, aided by System Advisory Boards representing the public served. Most systems employ a Coordinator/-Director and support staff. They maintain a communications system of telephone and, typically, electronic mail, direct distance dial units, or TWX. Either through system vans or by contract with member libraries, they provide regular delivery service for exchange of materials. One or more system reference centers, housed in the larger libraries, are supported for second level referral of questions individual libraries are unable to answer. Systems are supported by a combination of local membership fees and reimbursements, state CLSA program grants, and project awards of federal Library Services and Construction Act (LSCA) funds. Most systems have associated intertype library networks or affiliated academic and special library members.

Population. Combined population estimate for January 1, reporting year of system member public libraries.

Area sq. mi. Combined service area in square miles of system member public libraries.

Reference questions. Questions handled by system level reference centers. As referrals, the count duplicates a portion of the reference count of member libraries.

Messages sent. Number of messages sent by system telecommunications.

Items delivered. Count of items exchanged through system delivery services.

Miles driven. Number of miles driven by system delivery vehicles.

Reference expenditure. CLSA allowance for provision of system reference services. Includes staff, materials and operations.

C & D expenditure. CLSA allowance for system telecommunications and for maintenance of system delivery service.

SAB expenditure. CLSA allowance to support the System Advisory Board (SAB), typically including travel, postage and office supplies.

CLSA Program allowances. Total state award to the system under the CLSA funded programs listed.

LSCA Program grants. System administration is a CLSA component not presently funded under the Act. To aid systems in a demonstration of the costs of planning, coordinating and evaluating the CLSA programs, awards of federal LSCA funds have been made.

Total system programs. Expenditure from CLSA, LSCA, local and other funds for all programs of the system.

Public Libraries

California's 169 public libraries are departments of local government: city, county and special district. They vary widely in size and strength, from the City of Vernon with 90 residents to Los Angeles with more than 3 million, and cover the state with a network of branch libraries, bookmobiles and other extension services. Most participate in cooperative library systems comprising all the public libraries in a county, or several adjacent counties, offering equal access and sharing of resources among all residents. Address listings may be found in the companion volume, California Library Directory.

Public libraries are grouped into six categories by size of population served:

Group 1	over 500,000 population
Group 2	100,000 to 500,000 population
Group 3	50,000 to 100,000 population
Group 4	25,000 to 50,000 population
Group 5	12,500 to 25,000 population
Group 6	under 12,500 population

For each size group there are six tables:

Table 1, Profile	Population, system, outlets, per capitas
Table 2, Income	Local revenue, state allocations
Table 3, Expenditure	Materials, salaries, total
Table 4, Staffing	Staff count, salary ranges
Table 5, Collections	Print, microform, audiovisual
Table 6, Activities	Circulation, ILL, reference

Data on the following tables are taken from annual reports submitted to the California State Library. Preliminary tables were compiled from these reports and published as Public Library Statistics, Advance Edition. Additions and corrections received from libraries up to the cut off date are incorporated in the tables in California Library Statistics, which supersede those of the Advance Edition.

Population. Population served by the library jurisdiction, estimate for January 1, 1985, certified by the State Library. Figures are drawn from the Population Research Unit of the State Department of Finance and are intended to represent as accurately as possible the actual number of persons served and taxed for service, with no persons counted twice or credited to more than one library. Many county libraries are not credited with the entire county population, for their boundaries contain cities or districts independently supplying service. District libraries typically serve an unincorporated area larger than their central city. A few municipal libraries serve unincorporated county areas under contract with the county.

Registered borrowers. Number of persons registered with the library for circulation and other services. May exceed the certified population of the library jurisdiction.

Building outlets. Number of fixed building outlets providing public library service. This includes a main library, branch library, and library station but not an administrative headquarters providing no public service.

Branch is an extension library open some part of each of five days a week, has at least 1,400 sq. ft. of floor space, a general book collection of at least 7,000 volumes, and is staffed with the equivalent of at least one librarian and one clerical employee during the hours open for service.

Station is a library structure smaller than a branch, providing a lower level of service.

Total outlets. Total of fixed building outlets plus the number of stops by any mobile library (bookmobile, trailer, van, etc.) operated by the library.

Hours. Number of hours of public service provided weekly by all outlets, including mobile library service hours but not travel time. Fractions of hours are dropped.

Area sq. mi. Area of jurisdiction served by library in square miles.

Expenditure per capita. Total operating expenditure expressed as per capita. Annual report line C12, "Total Operating Expenditure", for the reporting year is added to line C18, "Estimate of services and supplies benefiting library expended by other city/county division, not charged to library budget". This sum is divided by the population served.

Circulation per capita. Total circulation of all materials is divided by the population served. Data on in-library use of materials is not gathered at this time.

Reference per capita. Total reference questions answered is divided by the population served.

Table 2, "Income"

Total operating income. Total income available for operating expenses (not capital outlay), the sum of local, state and federal sources and transfer from reserves or beginning balance.

Capital outlay. Income for capital outlay items, including sites, buildings, vehicles and equipment over $200.

Total income. Total income available for operating expenses and capital outlay.

Local revenue appropriated. Local revenue appropriated for the year by the jurisdiction, as reported on the Public Library Fund Certification, on October 31. Possible later changes in appropriation are not considered. This figure is not derived from the Public Library Report. (Note that through inclusion on the PLF Certification of amount for facility maintenance and administration, even though not included in library budget, the figure for Local Revenue Appropriated may in some cases be larger than that for Total Operating Income.)

State allocations: CLSA. State funds allocated to the jurisdiction under the California Library Services Act for transaction based reimbursements.

State allocations: PLF. State funds allocated to the jurisdiction under the Public Library Fund.

Table 3, "Expenditure"

Library materials. Expenditure for all library materials: books, periodicals, microforms, audiovisual materials. Excludes supplies, binding and materials leased on contract.

Staff salaries. Expenditure for staff salaries and benefits of administration and library service personnel. Excludes maintenance staff paid from budget.

Total operating expenditure. Materials, salaries, operations, contract services, transfers, payments. Excludes capital outlay and transfer to reserves.

Capital outlay. Expenditure for capital outlay items: equipment over $200, sites, buildings, remodeling, vehicles, etc.

Grand total expenditure. Operating expenditure plus capital outlay and allocation to reserve.

Table 4, "Staffing"

Staff count. Total count of persons employed full-time and part-time, paid from library budget, as of June 30, reporting year. Number cannot be a fraction.

Librarian FTE. Number of persons working as Librarian, with MLS degree or equivalent, expressed in full-time equivalent (FTE). Full-time is normally 40 hours per week, but not less than 36. Includes library director.

Support FTE. Number of persons working in support staff positions, ie, library technical assistant, clerk-typist, etc., expressed in full-time equivalent (FTE). Includes student pages and all part-time help. Does not include staff provided by contract or local government.

Total FTE. Total full-time equivalent of all persons paid from library budget.

Volunteer FTE. Full-time equivalent weekly of persons volunteering unpaid service in library.

Salary ranges. Monthly salary ranges, beginning step - final step, of positions surveyed, as of September 30.

Titles added. Count of individual new book titles added during the fiscal year.

Titles held. Count of all individual book titles held at end of fiscal year, June 30.
